Pre-Printed Shirts

The screenshot displays the 'Pre-Printed Shirts' application in the Jonas Sports Retail system. The interface is divided into two main sections: 'Application Details' and 'Apply on following'.

Application Details:

- Base Shirt: MU 25/26 Mens Home Jersey Red
- Component 1: PL Adult Badge (1)
- Component 2: No Room for Racism (1)
- Font: Premier League Font
- Squad: AMAD 16
- Squad Type: squad_block

Apply on following:

- Branch: Select a following
- Size S: Please select the quantity to apply
- Size M: Please select the quantity to apply
- Size L: Please select the quantity to apply
- Size XL: Please select the quantity to apply
- Size 2XL: Please select the quantity to apply
- Size 3XL: Please select the quantity to apply

The left sidebar contains a navigation menu with the following items:

- > Pre-Printed Shirts
- > Sales
- > Adjustments
- > Returns To Suppliers
- > Branch To Branch Transfers
- > Bin and Stock Location Maintenance
- > Branch Restocking Maintenance
- > Outlet Sales
- > Active/Inactive Maintenance
- > Stock Deletion
- > Style Colour Deletion
- > Stock Discontinue/Recontinue
- > Product Amendment Export/Import
- > Product Amendment Export/Import for Cust

Streamlined Component Builder

Create Pre-Printed shirt with squad numbers, letters and badges

Improved Matchday Sales

Quicker transactions in-store during busy matchdays as shirts are ready to sell without additional printing.

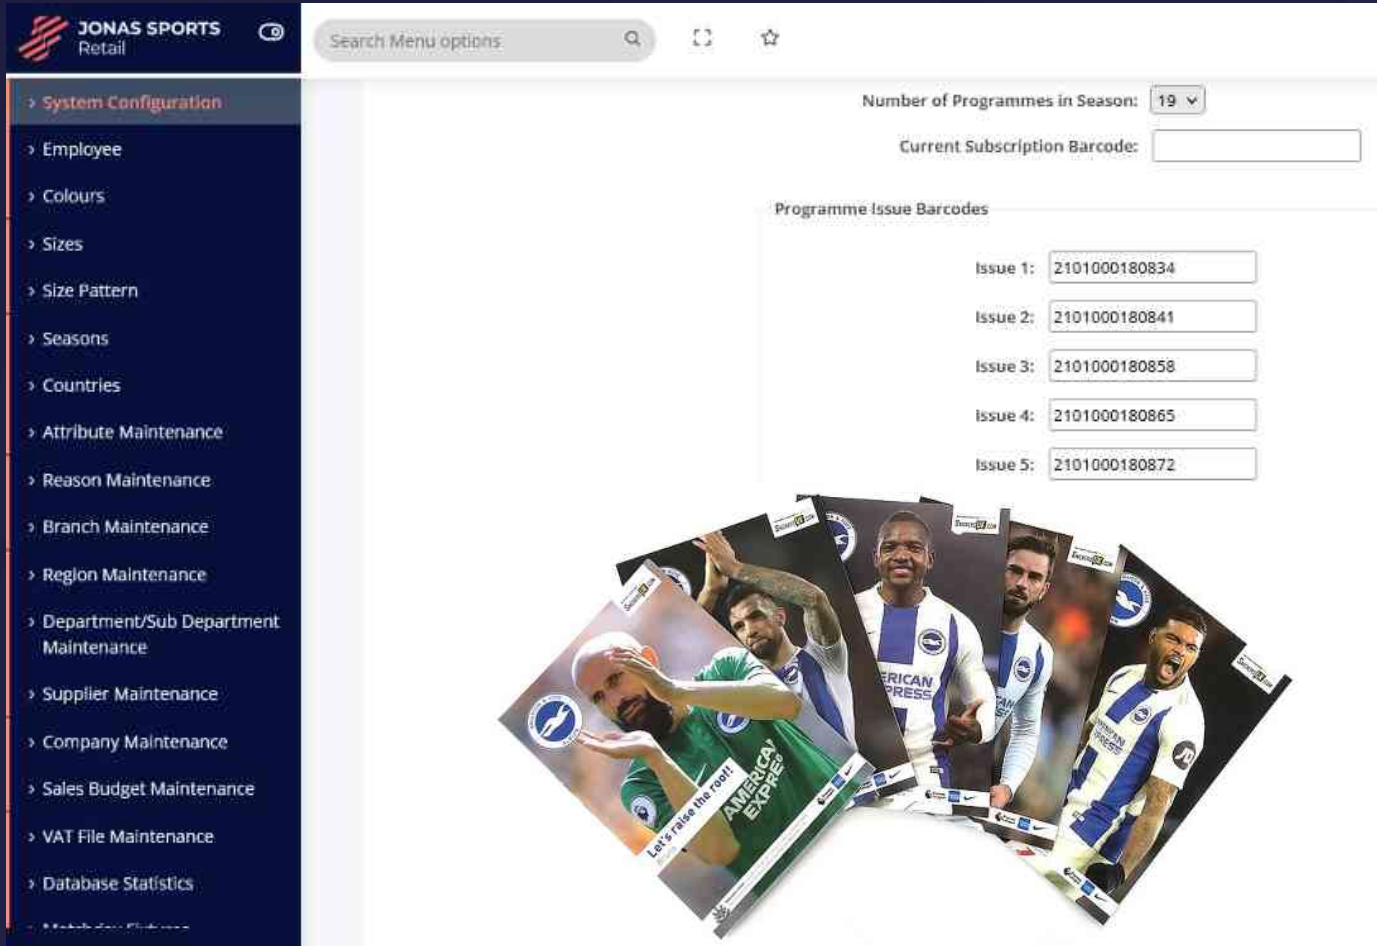

Better Inventory Control

Helps forecast and manage stock by assigning a fixed quantity to specific player names or numbers.

Promotional Opportunity

Supports campaign pushes around key fixtures, new signings, or player milestones.

Programme Subscriptions

The screenshot shows the JONAS SPORTS Retail system configuration interface. On the left is a dark blue sidebar with a list of configuration options: System Configuration (highlighted), Employee, Colours, Sizes, Size Pattern, Seasons, Countries, Attribute Maintenance, Reason Maintenance, Branch Maintenance, Region Maintenance, Department/Sub Department Maintenance, Supplier Maintenance, Company Maintenance, Sales Budget Maintenance, VAT File Maintenance, and Database Statistics. The main content area is white and contains the following fields:

- Search Menu options: [Search icon]
- Number of Programmes in Season: 19 [Dropdown arrow]
- Current Subscription Barcode: [Text input field]
- Programme Issue Barcodes section with five rows:
 - Issue 1: 2101000180834 [Text input field]
 - Issue 2: 2101000180841 [Text input field]
 - Issue 3: 2101000180858 [Text input field]
 - Issue 4: 2101000180865 [Text input field]
 - Issue 5: 2101000180872 [Text input field]

At the bottom of the main content area, there is a fan of football programme covers. The top cover features a player in a green jersey and the text "Let's raise the roof! AMERICAN EXPRESS". The other covers show players in white and blue kits, with "AMERICAN EXPRESS" branding visible on some.

One-Time Purchase

Customers buy a single "Programme Subscription" covering all issues for the season, including postage.

Automated Weekly Orders

Each week, the system auto-generates orders based on the current match week's barcode.

No Extra Charges

Orders are processed at zero cost to the customer . Payment is handled upfront.

Standard Fulfilment

Programmes are packed and posted just like regular single-issue orders.

Easy Setup for New Seasons

At season-end, clubs create new subscription products and upload barcodes in system config.

User Day 2025

Customer Reviews (Trustpilot)

Automated Review Invitations

Send automatic email invites to customers after purchase, with timing and frequency controls.

Review Management Dashboard

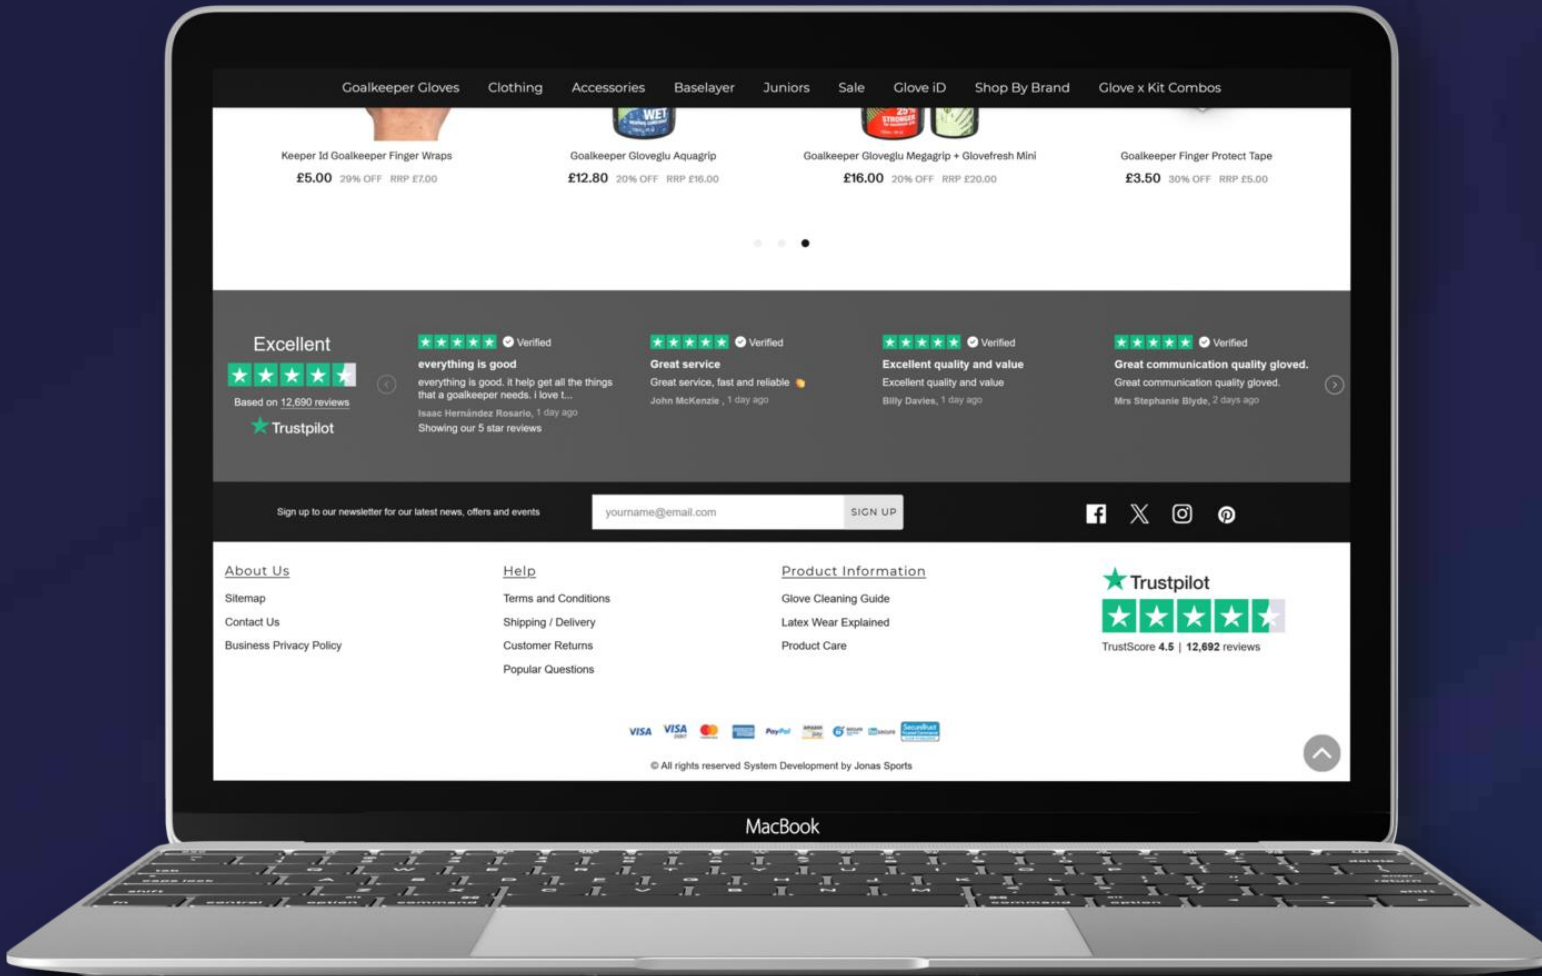

Respond to reviews, flag inappropriate ones, filter by rating, tag feedback, and export data.

Trustpilot Widgets and Badges

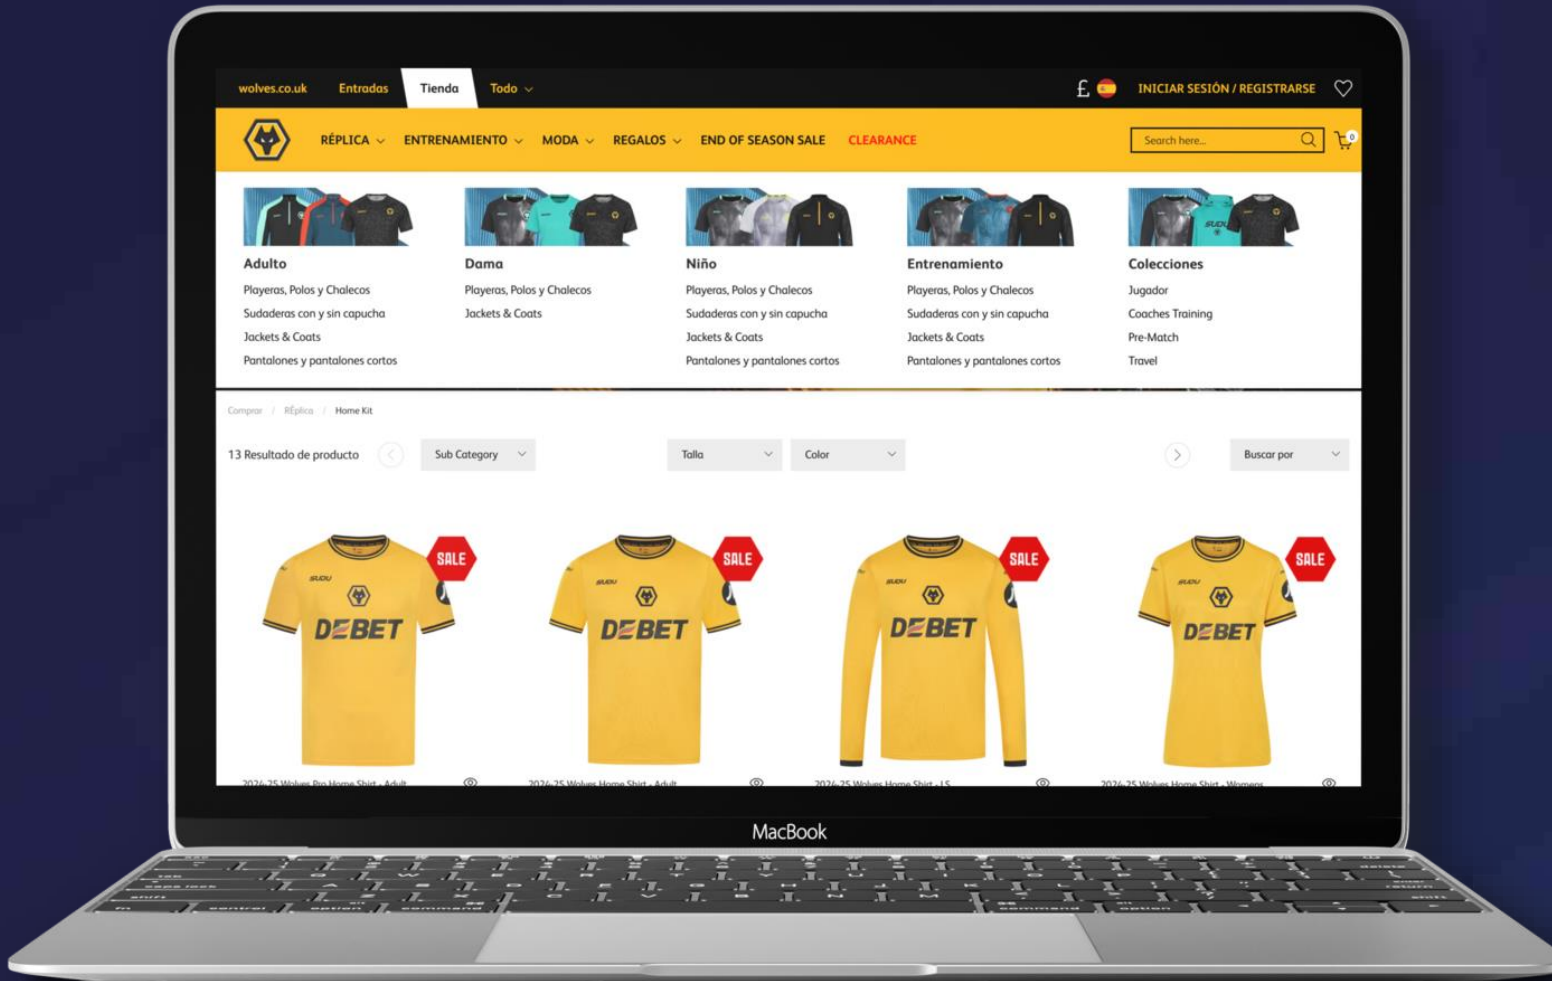

Embed review widgets on your website (carousel, sidebar, rating badge) to show live reviews.

Analytics and Insights

See trends over time, common keywords, rating breakdown, customer sentiment analysis.

Multilingual Checkout

Full Language Support

Product pages, navigation, and checkout flow available in multiple languages.

Auto or Manual Language Detection Detects browser language or lets users choose from a dropdown.

Localised Content

Translates not just text but tone - product details, error messages, and promo banners.

Consistent Experience with Fallback

Same smooth flow from homepage to order confirmation - If a language isn't configured, content defaults to English — so users never hit broken or untranslated pages.
